1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-39 and 45-58 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Abu-Isa et al, US Patent No. 5,834,535.

3. Abu-Isa discloses intumescent thermoplastic molding compositions comprising HDPE, chlorinated polyethylene, plasticizer, MgO, dihydrogen phosphate, distearylthiodipropionate, SbO, titanium oxide, pentaerythritol, graphite and corn starch. All species of applicant's presently claimed invention are taught by Abu-Isa in the amounts set forth in the present claims. No patentable difference is readily ascertained. See the entire document. See in particular, col. 1, line 55 through col. 4, line 62. The compositions are used to form moldings and are produced under shear at elevated temperatures. See col. 5, line 7 through col. 7, line 19. Also see Tables 5, 6 and 7.
